 - You must use any and all of the terminology that we have used in class so far. You may also think of your own games to teach the piece.
 - Part of your grade will be determined by how well you identify specific string problems in the group. You will be expected to do the following: call out people who do not have the correct position and offer them suggestions to improve their particular problem, demonstrate the piece on your instrument, speak and offer instruction in a clear and direct manner.
